CHIP & PIN

Your Faysal Bank Cards have an embedded microchip on which your Card data is securely stored ensuring that your Card is unique and cannot be duplicated.

When making a cash or retail transaction with your new Chip & PIN Card, at a merchant, you need to enter your 4-digit PIN. That means that if your Card is ever lost or stolen, no one else can use it, because only you know your PIN. This provides you with an additional layer of security for all your transactions and ultimately much more peace of mind.

At the time of card activation, you will now be required to generate a Personal Identification Number (PIN) by contacting Phone Banking at 021-111-06 06 06

When you use your Card to make a purchase at a merchant outlet, the merchant will insert the card in the POS machine and you will be required to enter a PIN while the card is still in the machine. The Chip inside the card will authorize the transaction and you will not have to sign a receipt

You can

Follow these steps when conducting a transaction with your Card at a merchant outlet:

- Merchant inserts your card in a PIN enabled POS machine and enters the transaction amount
- The POS machine prompts for a PIN to be entered by you
- Upon entering the correct PIN, the transaction is confirmed and completed.
- For POS machines without PIN authentication support, you will have to complete the transaction by signing the receipt.

- If you enter the wrong PIN more than three times, it will render the card temporarily blocked. You will then have to contact Phone Banking at 021-111-06 06 06 to reset the PIN.

CONTACTLESS

Mastercard contactless payments allow card holders to shop conveniently and quickly at the POS with just the tap of their card. Contactless payment is ideal for places where speed counts and is accepted at millions of locations nationwide. Contactless transactions do not require you to swipe your Card or enter your PIN code (unless above the payment threshold) into the POS machine

The limit for contactless transactions can be changed at any time by the associations and/or the merchant's acquiring bank and pertains to transactions made in Pakistan. In other countries, the limit might be set differently according to the rules in force. Transactions for amounts above the defined limits will be completed using your PIN. A contactless payment can be rejected at any POS machine and instead the cardholder may be required to perform the transaction using the PIN.

CARD ON FILE

Card on file are recurring payments or billing) that take place when Cardmember authorizes a merchant to charge them repeatedly for goods or services on a prearranged schedule (monthly, weekly, daily or annually) or as per request for payment. Card on file enables Cardmembers to automatically make payment for goods and services on online transaction or Merchant Apps quickly and in hassle free manner.
